# SALE OF GOVERNMENT PUBLICATIONS.

The under-mentioned Firms have been appointed sole Agents for the sale of Government Publications, including Parliamentary Reports and Papers, Acts of Parliament, Record Office Publications, &c., &c. (with the under-mentioned exceptions), and all such works can be purchased from them either directly or through retail booksellers, who, as well as the accredited Agents of Free Public Libraries, are entitled to a discount of 25 per cent. from the published prices:—

IN ENGLAND:—WYMAN AND SONS, LTD., Fetter Lane, E.C.

IN SCOTLAND:—OLIVER AND BOYD, Tweeddale Court, Edinburgh.

IN IRELAND:—E. PONSONBY, LTD., 116, Grafton Street, Dublin.

Hydrographical Works of the Admiralty are sold by Mr. J. D. POTTER, 145, Minster, E.C.

Patent Office Publications are sold at the Patent Office. (Classified Abridgments of Patent Specifications are sold also by Wyman and Sons, Ltd.)

The Publications of the Ordnance Survey and of the Geological Survey can be purchased from Agents in most of the chief towns in the United Kingdom, through any Bookseller, or from the Director General of the Ordnance Survey, Southampton, or, in the case of Ireland, from the Superintendent, Ordnance Survey, Dublin. In addition, Small Scale Maps are, as a rule, procurable at Railway Bookstalls in England and Wales.

The Journal of the Board of Agriculture is published monthly by the Board, at 4, Whitehall Place, S.W. Prior to April, 1907, it was published by Messrs. Loughton and Co., Ltd., 3, Wellington Street, Strand, W.C. Price 4d.

The following is a list of some of the more important Parliamentary and Official Publications recently issued:—

## Statutes—

*Public General Acts, 1910.* In separate chapters, at varying prices.

*Local and Personal Acts, 1910.* 3d. per 4 pp.

*Public General, Session 1909.* With Index, Tables, &c. Cloth.

*Second Revised Edition. 1235-1900. Vols. I. to XX.* 7s. 6d. each.

*Statutes in Force. Chronological Table and Index of. 25th Edition. To the end of the Session 9 Edward VII. (1904).* 2 vols. 10s. 6d.

*Acts of the Parliaments of Scotland, 1424-1707. Revised edition.* 10s.

*Statutory Rules and Orders other than those of a Local, Personal, or Temporary Character. Issued in 1890 to 1909.* 10s. each.

*Statutory Rules and Orders revised, in force on Dec. 31, 1903. Vols. I. to XIII.* 10s. each.

*Statutory Rules and Orders in force on 31st December, 1906. Index to. (In the press.)* 10s.

PARLIAMENTARY DEBATES. House of Lords and House of Commons; each daily part 3d.; also issued in bound volumes with Index.

VOTES AND PROCEEDINGS OF THE HOUSE OF COMMONS. Sess. 1910. Subscription Price 3s.

MINUTES OF PROCEEDINGS OF THE HOUSE OF LORDS. Sess. 1910. Subscription Price 3s.

HISTORICAL MANUSCRIPTS. Reports of the Royal Commissioners. In course of issue.

[Cd. 4409, 4945.] POOR LAWS AND RELIEF OF DISTRESS. Royal Commission. Majority and Minority Reports, with Index. 5s.

Do. Octavo edition, in 3 vols., without Index:—

Vol. I. Parts I. to VI. of the Majority Report, 1s. 6d.; Vol. II. Part VII. to the end of the Majority Report, 8d.; Vol. III. Minority Report, 1s. 9d.

[Cd. 4630.] Do. Report on Ireland. 9d.

# AGRICULTURAL STATISTICS, IRELAND, 1909.

## REPORT

TO THE

SECRETARY OF THE DEPARTMENT OF AGRICULTURE  
AND TECHNICAL INSTRUCTION FOR IRELAND.

SIR,

I have the honour to submit the detailed Annual Report on the Agricultural Statistics of Ireland for the year 1909. The present statistics, while including, for convenience of reference, and for the purpose of permanent record, several of the tables previously issued in the General Abstracts showing the Acreage under Crops, and the Numbers of Live Stock, and in the series of returns of the yields of the several crops, issued during the past year, furnish in addition (1) particulars of the number and size of agricultural holdings and of their distribution; (2) a comparative record of the changes which have taken place in the several counties during the past ten years as regards the extent and yield of the chief crops and the numbers of live stock; (3) statistics of the area of the chief kinds of bush and tree fruits; and (4), statistics of the area under woods and coppice, and of planting and felling operations.

The usual summary tables presented on pp. 1 *et seq.* show some of the chief results of the detailed tables, and also certain general and comparative statistics relating to agriculture.

The total area of Ireland was returned in the Census of 1901 as 20,345,328 statute acres. The inclusion of 5,397 acres of reclaimed slob in the County Wexford brings the total area to 20,350,725 statute acres. This total includes 117,135 acres under water, but excludes close on half a million acres (487,418) under the large rivers, lakes, and tideways. The following table shows

the division of land in 1909 by provinces, and also for Ireland as a whole:—

TABLE showing by Provinces the Area under Crops, Hay, Pasture, Woods and Plantations, and Bog, Marsh, &c., in the year 1909:—

—	Leinster.	Munster.	Ulster.	Connaught.	Ireland.
	Acres.	Acres.	Acres.	Acres.	Acres.
Crops, Cereals, . . .	357,776	256,125	519,651	118,242	1,251,795
Crops, Roots and Green	244,890	254,500	347,994	154,287	1,001,671
Flax, . . . . .	42	132	37,905	31	38,110
Fruit, . . . . .	2,621	2,451	6,880	631	12,583
Hay, 1st year's, . . .	137,729	111,712	219,915	28,679	498,035
Hay, 2nd and 3rd year's.	126,440	91,625	77,062	37,846	332,963
Permanent Meadow,	334,700	505,379	323,263	284,138	1,447,540
Pasture, Rotation, under 5 years.	275,139	299,515	823,941	96,999	1,495,594
Pasture, Permanent, 5 years and over.	2,513,107	2,867,519	1,390,868	1,820,357	8,591,851
Mountain Land, grazed	192,931	716,892	888,323	746,423	2,544,569
Woods and Plantations	92,270	99,506	59,528	59,140	301,444
Bog, Marsh and Barren	320,747	479,553	377,904	655,676	1,833,880
Mountain Land.					
Roads, Building Land, Water and Waste.	246,517	271,117	339,310	234,746	1,091,690
Total, . . . . .	4,844,969	5,955,027	5,322,534	4,228,195	20,350,725

It will be seen from this table that the area under corn and green crops, flax and fruit, amounted in 1909 to 2,304,159 acres or 11.3 per cent. of the total area, the area under hay to 2,278,538 acres, or 11.2 per cent. of the total area, and the area of rotation and permanent pasture to 9,997,445 acres, or 49.1 per cent. of the total area. If to the pasture is added the grazed mountain land the total grazed area amounted to 12,541,014 acres or 61.6 per cent. of the total area of Ireland. Woods and plantations amounted to 301,444 acres, or 1.5 per cent. of the total area, while the remaining area, 2,928,570 acres, or 14.4 per cent. of the total area, consisted of bog, barren mountain, water, roads, building lands, waste, etc. In connection with this latter figure it will be seen by reference to table I., page 21, that the area of barren or ungrazed mountain was returned in 1909 at 529,286 acres, the area of turf bog at 922,778 acres, the area of marsh at 381,816 acres, and the area of water, roads, building lands—including the area of towns and villages—waste, etc., at 1,091,690 acres.

A detailed comparison of the acreage under crops and hay in 1908 and 1909 has already been made in the "General Abstracts showing the Acreage under Crops," etc. [cd. 4880, 1909.] A summary table showing the changes in the acreage of the several crops will be found on page 3 of the present report, and particulars of the acreage of crops in each County and Poor Law Union in 1909 will be found on pp. 33 *et seq.*

As regards the main changes which have taken place during the past sixty years these are seen in the following table, which shows the areas of crops and hay since 1851, respectively under corn crops, green crops and flax, and hay, in each Census year since 1851 and in the year 1909:—

TABLE showing the Area under Corn Crops, Green Crops and Flax, and Hay in Ireland, in each of the years 1851, 1861, 1871, 1881, 1901 and 1909:—

YEAR.		Corn Crops.	Green Crops and Flax.	Hay.	Total
		Acres.	Acres.	Acres.	Acres.
1851.	.	3,099,401	1,513,142	1,246,408	5,858,951
1861.	.	2,624,957	1,719,373	1,546,206	5,890,536
1871.	.	2,124,034	1,668,359	1,829,044	5,621,437
1881.	.	1,777,175	1,417,171	2,001,029	5,195,375
1891.	.	1,492,763	1,266,089	2,069,529	4,818,381
1901.	.	1,317,574	1,134,885	2,178,592	4,631,051
1909.	.	1,251,795	1,039,781	2,278,538	4,570,114
1909 compared with 1851	Increase or Decrease.	Decrease, 1,847,606	Decrease, 473,361	Increase, 1,032,130	Decrease, 1,288,837
	Rate per cent.,	59.6	31.3	82.8	22.0

From this table it will be seen that in each decade from 1851 to 1901 there was a rapid fall in the area of corn crops, though the prices of cereals were, on the whole, well maintained both in Great Britain and in Ireland until 1878, and the marked fall in prices did not take place until after 1884. In the case of green crops the shrinkage in the area began considerably later than in cereals, for while there was to some extent a falling away in the acreage of green crops in the later sixties, it was not until after 1875 that the decline in their acreage became regular and heavy. While the acreage of corn crops, green crops and flax has thus fallen since 1851 by 2,320,967 acres, the area of hay has increased by over 1,000,000 acres, this increase being especially marked between 1851 and 1881.

It is of interest when considering these figures to have in view the changes in the same crop areas during the past ten years as shown in the following table:—

TABLE showing the Area under Corn Crops, Green Crops and Flax, and Hay in Ireland in each year from 1900 to 1909 inclusive:—

YEAR.		Corn Crops.	Green Crops including Flax.	Hay.	Total.
		Acres.	Acres.	Acres.	Acres.
1900.	. . . . .	1,347,189	1,145,828	2,165,715	4,658,732
1901.	. . . . .	1,317,574	1,134,885	2,178,592	4,631,051
1902.	. . . . .	1,306,568	1,120,135	2,168,464	4,595,167
1903.	. . . . .	1,306,345	1,104,468	2,224,165	4,634,978
1904.	. . . . .	1,279,189	1,094,776	2,260,160	4,634,125
1905.	. . . . .	1,271,190	1,090,531	2,294,506	4,656,227
1906.	. . . . .	1,309,343	1,088,885	2,330,016	4,728,244
1907.	. . . . .	1,294,991	1,062,639	2,281,318	4,638,948
1908.	. . . . .	1,261,715	1,055,813	2,298,793	4,616,321
1909.	. . . . .	1,251,795	1,039,781	2,278,538	4,570,114
1909 compared with 1900		Decrease, 95,394	Decrease, 106,047	Increase, 112,823	Decrease, 88,618
		Rate per cent., 7.1	9.3	5.2	1.9

From this table it will be seen that the fall in the area of corn crops has amounted, in the ten years 1900-1909, to 95,394 acres, or 7.1 per cent. of the total area, while the decrease in green crops, including flax, amounted to 106,047 acres, or 9.3 per cent. Meanwhile the area under hay has increased by 112,823 acres, or 5.2 per cent.

The shrinkage in the area of crops during the past fifty years has been very marked in all four provinces, but it is of interest to compare the changes in the extent of the corn, green crops and hay acreage at different periods respectively in Leinster, Munster, Ulster, and Connaught.

The following summaries show the crop acreage by provinces for the Census years since 1851 and for the year 1909:—

TABLE showing the Area under Corn Crops, Green Crops and Flax, and Hay in the Province of **Leinster** in each of the years 1851, 1861, 1871, 1881, 1891, 1901 and 1909:—

YEAR.	Corn Crops.	Green Crops, including Flax.	Hay.	Total.
	Acrea.	Acrea.	Acrea.	Acrea.
1851, . . . . .	960,883	343,966	481,564	1,786,413
1861, . . . . .	746,663	351,989	547,122	1,645,774
1871, . . . . .	623,742	359,151	621,765	1,604,658
1881, . . . . .	512,775	298,353	628,253	1,439,381
1891, . . . . .	428,619	282,333	590,643	1,301,595
1901, . . . . .	373,858	257,205	597,662	1,228,725
1909, . . . . .	357,776	244,932	598,929	1,201,637
1909 compared with 1851	Increase or De- crease.	Decrease, 603,107	Increase, 117,365	Decrease, 584,776
	Rate per cent.,	62.8	28.8	32.7

TABLE showing the Area under Corn Crops, Green Crops and Flax, and Hay in the Province of **Munster** in each of the years 1851, 1861, 1871, 1881, 1891, 1901 and 1909:—

YEAR.	Corn Crops.	Green Crops, including Flax.	Hay.	Total.
	Acrea.	Acrea.	Acrea.	Acrea.
1851, . . . . .	732,294	403,973	372,072	1,508,339

1909, . . . . .	118,242	154,318	350,663	623,223
1909 compared with 1851	Decrease, 241,565	Decrease, 65,452	Increase, 218,036	Decrease, 88,981
	Rate per cent., 67.1	29.8	164.4	12.5

These tables show that, comparing 1909 with 1851, the decline in tillage of Corn and Green Crops has been greatest in Munster and least in Ulster.

With regard to the changes which have taken place in the areas of the several corn and grain crops the following table gives a summarised return for the several Census years from 1851, and also for the year 1909:—

TABLE showing the Area under the various Cereal Crops in each of the years 1851, 1861, 1871, 1881, 1891, 1901, and 1909.

YEAR.	CORN CROPS.							
	Wheat.	Oats.	Barley.	Bere.	Rye.	Beans.	Pease.	Total Corn Crops.
	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.
1851.	364,248	2,189,775	282,617	53,347	19,697	22,535	21,182	3,099,401
1861.	401,343	1,999,160	198,955	3,032	8,539	12,451	1,563	2,624,567

				172,864				1,847,606
		91.4	52.7	51.5		62.1	94.3	98.6

### Wheat.

The great decline in the wheat area has affected chiefly the provinces of Leinster and Munster. In 1851 the area of wheat in Leinster was 202,578 acres, in Munster 180,260 acres, in Ulster 90,188 acres, and in Connaught 81,213 acres. In 1909 the area of wheat in Leinster was 18,344 acres, in Munster 11,715 acres, in Ulster 9,286 acres, and in Connaught 4,261 acres.

### Oats.

With regard to oats, which in 1909 represented 1,035,735 acres, out of a total area of cereal crops amounting to 1,251,795 acres, the decline has been very marked in all four provinces, the percentage of decrease being greatest in Connaught. In 1851 the area under oats was in Leinster 614,535 acres, in Munster 399,534 acres, in Ulster 888,419 acres, and in Connaught 287,287 acres. In 1909 the area in Leinster was 223,885 acres, in Munster 201,858 acres, in Ulster 502,562 acres, and in Connaught 107,430 acres. It will be seen that at the present day almost half the total acreage of oats is in Ulster.

*Barley and Bere.*

In the case of barley, the total area of 163,100 acres, including bere, has declined by 51.4 per cent. In 1851 the acreage of barley and bere in Leinster was 125,892 acres and in 1909 was 114,015 acres, the net change being small. In the other provinces the area of barley and bere has greatly declined. In 1851 the area in Munster was 137,568 acres as compared with 41,031 acres in 1909, in Ulster it was 42,924 acres in 1851 as compared with 4,944 in 1909, and in Connaught it was 30,080 acres in 1851 as compared with 3,110 in 1909.

*Rye.*

In the case of rye the decline in the acreage has taken place chiefly in Leinster and in Ulster. In Ulster in 1851 the acreage of rye was 6,942 acres as compared with 1,315 in 1909; in Leinster 3,940 acres in 1851 as compared with 1,213 acres in 1909; and in Munster 2,838 acres in 1851 as compared with 1,496 acres in 1909. In Connaught the area of rye has changed to a much less extent, being 5,977 acres in 1851 and 3,440 acres in 1909.

With regard to the changes in the area of green crops, the following table presents the figures for each Census year since 1851, and for the year 1909:—

TABLE showing the area under the various Green and Root Crops and Flax in each of the years 1851, 1861, 1871, 1881, 1891, 1901, and 1909:—

Year.	GREEN CROPS.											Flax.
	Potatoes.	Turneps.	Manget Ward.	Beet Root.	Carrots.	Pars- nips.	Cab- bage.	Fetiches.	Rape.	Other Green Crops.	Total Green Crops.	
1851.	Acres. 868,501	Acres. 383,588	Acres. 25,847	Acres. 611	Acres. 6,102	Acres. 1,236	Acres. 28,962	Acres. 25,811	Acres. 20,291	Acres. 11,037	Acres. 1,373,096	Acres. 16,075
1861.	1,133,564	334,104	22,852	110	6,926	436	30,030	17,941	18,339	12,197	1,371,429	17,066

*Potatoes.*

The heavy decline in the area of potatoes since 1861 has taken place in all four provinces. In 1861 the area in Leinster amounted to 214,558 acres, in Munster to 291,000 acres, in Ulster to 388,417 acres, and in Connaught to 239,529 acres. In 1909 the area under potatoes was in Leinster 109,922 acres, in Munster 120,799 acres, in Ulster 239,757 acres, and in Connaught 109,321 acres. Proportionately to the total area of potatoes the decrease has been greatest in Munster and least in Ulster.

*Turnips and Mangels.*

The shrinkage in area began earlier in the case of turnips than in potatoes, but, allowing for the increase which has taken place in mangels, has been much less marked. In Leinster in 1851 the area under turnips was 104,069 acres, and under mangels 13,344 acres. In 1909 the area under turnips was 91,873 acres, and under mangels 24,667 acres. Thus the net change in the area under roots in Leinster has not been great. In Munster there has been a much more considerable shrinkage, the area under turnips in 1851 amounting to 125,493 acres, as compared with 73,576 acres in 1909. But against this decline has to be set an increase in the area of mangels from 7,470 acres in 1851 to 35,791 acres in 1909. The net change, however, in the area of roots has been greater in Munster than in either Leinster or Ulster. In Ulster the area of turnips in 1851 was 108,216 acres. In 1861 the area had fallen to 81,973 acres, but rose again to 90,479 acres in 1871. In 1909 the area amounted to 88,210 acres. The area of mangels in Ulster is small. In 1851 it was 3,761 acres, and in 1909 it amounted to 5,122 acres. The net change in the area of roots in Ulster has thus been small, and this is true especially of the past thirty-five years. In Connaught the area under turnips has always been very limited, but notwithstanding this, the decline, proportionately to the area, has been more marked than in any other province. In 1851 there were 45,770 acres in Connaught under turnips, as compared with 23,285 acres in 1909. The area of mangels in 1851 was 1,272 acres, and in 1909 amounted to 7,857 acres.

*Cabbage.*

The increase in the area of cabbage in the period 1851-1909 has taken place in all the provinces except Ulster, but especially in Munster, where the area in 1851 was 8,063 acres, and in 1909, 17,103 acres.

*Flax.*

In the case of flax, of the total area in 1851 of 140,536 acres, there were in Ulster 125,407 acres, in Leinster 4,889 acres, in Munster 5,991 acres, and in Connaught 4,249 acres. The great decline in the area has taken place in the past thirty years, the area returned for Ulster in 1881 being 143,873 acres. The area in 1909 was in Ulster 37,905 acres, in Leinster 42 acres, in Munster 132 acres, and in Connaught 31 acres.

*Hay.*

While the area of corn and green crops has been shrinking the area of hay has been extending. The following table shows the total area under hay in each Census year since 1851, and in the year 1909:—

Total Area under Hay, 1851-1909.

	ACRES.
1851, . . . . .	1,246,408
1861, . . . . .	1,546,206
1871, . . . . .	1,829,044
1881, . . . . .	2,001,029
1891, . . . . .	2,059,529
1901, . . . . .	2,178,592
1909, . . . . .	2,278,538

With these figures may be compared the following table showing the total area of hay in each of the past ten years:—

Total Area under Hay, 1900-1909.

	ACRES.
1900, . . . . .	2,166,715
1901, . . . . .	2,178,592
1902, . . . . .	2,168,464
1903, . . . . .	2,224,165
1904, . . . . .	2,260,160
1905, . . . . .	2,294,506
1906, . . . . .	2,330,016
1907, . . . . .	2,281,318
1908, . . . . .	2,298,793
1909, . . . . .	2,278,538

Thus it appears that from 1851 to 1881 there was in each decade a marked increase in the area of hay, but in the twenty years which followed the increase was much smaller. After 1902, however, there has again been a very considerable extension in the area of hay, though there has been a decline in the area in the past two years.

It will be seen from the summary table on page vi. that in 1909 the area under first year's hay amounted to 498,035 acres, the area under second and third years' hay to 832,963 acres, and the area of hay on permanent meadow to 1,447,540 acres. The area of rotation hay is largest in Ulster and in Leinster. The largest area of hay on permanent meadow is in Munster. In Connaught the area under permanent meadow is very large in proportion to the extent of rotation hay.

*Pasture.*

The total area under corn crops, green crops, flax and hay, amounted in 1851 to 5,858,951 acres, and in 1909 to 4,570,114 acres—a decrease of 1,288,837 acres. This figure represents approximately the increase in the area of pasture in the period 1851 to 1909. There have also been changes from year to year in the grazed area of moor, marsh, and mountain land, but this marginal grazing land is always difficult to classify

and to compare, and its value is relatively small. In 1909 the area of pasture, other than grazed mountain, amounted to 9,997,445 acres, while the area of grazed mountain land amounted to 2,543,569 acres, the total area of pasture and rough grazing being 12,541,014 acres.

### *Fruit.*

Owing to the increasing importance of the fruit crop in Ireland returns have been obtained in the past four years differentiating as far as possible the areas under the chief separate classes of fruit. As will be readily understood, however, there is considerable difficulty in making a return of the areas respectively of the several fruit crops owing to the large extent to which these are grown mixed in the one area. As far as possible the extents of the several crops have been returned separately, though, as will be seen from table 13, p. 100, the area returned as under mixed fruit represents a very considerable proportion of the total area of fruit.

The total area of fruit in 1909 was returned as 12,583 acres as compared with 12,145 acres in 1908, an increase of 438 acres. There were in Ulster 6,880 acres—more than half the total area under fruit in Ireland—in Leinster 2,621 acres, in Munster 2,451 acres, and in Connaught 631 acres. Much the largest extent of fruit is in County Armagh, where there were 4,195 acres in 1909, the next largest total being that of County Cork, amounting to 1,096 acres. The total area of fruit in Ireland, returned as 12,583 acres, was divided as follows:—Gooseberries, 723 acres; strawberries, 882 acres; raspberries, 397 acres; red and white currants, 162 acres; black currants, 245 acres; apples, 6,287 acres; pears, 175 acres; plums, 193 acres; damsons, 129 acres; other fruits, 142 acres; while there were 3,248 acres returned as under mixed fruits.

### *Varieties of Potatoes.*

Since 1880 an annual return has been made of the acreage of each variety of potato in Ireland. As already stated, the acreage under potatoes in Ireland in 1909 was 579,799, as compared with 587,144 acres in the year 1908, showing a decrease of 7,345 acres.

The acreage under each of the principal varieties of potatoes planted in 1909, with the percentage of the total, was as follows:—

—	Acres.	Per Cent.	—	Acres.	Per Cent.
Champions, . . .	304,871	52.6	Irish Whites, . . .	16,793	2.9
Up-to-date, . . .	97,383	16.8	American Early Rose, . . .	3,917	
Beauty of Bath, . . .	32,000	5.7	Scotch Triumph, . . .	1,865	3.8
Black Skerries, . . .	31,356	5.4	Elephants, . . .	1,319	
Flourish, . . .	28,736	4.9	Northern Stars, . . .	1,067	
British Queen, . . .	23,260	4.0	and others, . . .	13,838	
Suttons, . . .	22,565	3.9			

The main feature of this statement is that 52·6 per cent. of the acreage under the potato crop in Ireland consisted of Champions leaving only 47·4 per cent. for all other varieties—the percentage of some of these being so small as to be barely appreciable when put into figures.

From the following table it will be seen that during the past fifteen years the area of Champions has greatly decreased. In 1894 the area amounted to 78·5 per cent. of the total acreage of potatoes, whereas in 1909 it had fallen to 52·6.

TABLE showing for the years 1890-1909 the total area under Potatoes, and the extent under "Champions," with the number of acres under that variety in every 100 acres under Potatoes.

YEARS.	Total Area under Potatoes.	Area under Champions.	Proportion per cent. under Champions.	YEARS.	Total Area under Potatoes	Area under Champions	Proportion per cent. under Champions
	Statute Acres.	Statute Acres.			Statute Acres.	Statute Acres.	
1890,	786,901	613,700	78·6	1900,	654,679	432,322	66·1
1891,	755,332	590,408	78·7	1901,	635,321	421,866	66·4
1892,	746,025	585,906	79·2	1902,	629,304	412,900	65·6
1893,	725,735	572,685	79·1	1903,	620,393	395,045	63·7
1894,	717,090	562,674	78·5	1904,	618,540	379,968	61·3
1895,	710,486	552,065	77·7	1905,	616,755	363,017	58·9
1896,	705,095	529,573	75·0	1906,	616,107	344,698	56·0
1897,	677,216	491,673	72·6	1907,	590,908	321,987	54·4
1898,	664,964	465,781	70·0	1908,	587,144	320,785	54·6
1899,	662,914	451,133	68·0	1909,	579,799	304,871	52·6

A reference to Table 11, pages 89-90, where the acreage under potatoes is set out for each variety by counties and provinces and for the whole of Ireland, will show that the proportion of Champions is much the greatest in Connaught and Munster. On the other hand, in the counties of Antrim, Down, Londonderry and Dublin the area of Up-to-Dates is greater than that of Champions, while there are also large areas of other varieties of potatoes.

The decline in the area under the cereal, root, and green crops is a feature which stands out in the history of agriculture not only in Ireland, but also in England and Wales, and to a less degree in Scotland. The following tables present summarily the changes in the areas under cereal, root, and flax crops since 1867, from which year comparative information is available:—

—	1867.	1871.	1881.	1891.	1901.	1909.
Ireland (area 20,350,725 acres).

(a) Not distinguished in Returns for 1867.

The estimated produce of crops in 1909 has been already published in a series of statements showing the **Produce of Crops.** yield in the several counties. The season was, on the whole, favourable both for quantity and quality, though in the case of the hay and flax crops the yield was below average.

Summary tables showing the total produce of the several crops, the average yield per statute acre, and a comparison of yields for the past ten years will be found on pp. 5-7 of this report. The following summary states briefly the position as regards the several crops.

*Hay.*

Owing to the drought and the low temperature which prevailed during April, May, and June, the yield of hay in 1909 was considerably less than in 1908, but the favourable weather obtained during harvesting operations enabled the crop to be saved in good order. The deficiency in quantity was generally admitted to be largely compensated for by the excellent quality of the crop as fodder. The average yields per statute acre of the three descriptions of hay in the two seasons were as follows:—

1ST YEAR'S HAY.		2ND AND THIRD YEARS' HAY.		PERMANENT MEADOW.	
1909.	1908.	1909.	1908.	1909.	1908.
Tons. 1·8	Tons. 2·0	Tons. 1·7	Tons. 1·9	Tons. 2·1	Tons. 2·3

The total quantity of first year's hay was estimated at 899,748 tons in 1909, as compared with 984,393 tons in 1908; second and third years' hay at 574,059 in 1909, as compared with 640,486 tons in 1908, and hay from permanent meadow at 3,102,370 tons, as compared with 3,292,308 tons in 1908.

*Grain Crops.*

The Season of 1909 proved most favourable to the grain crops. The estimated rates of yield for Wheat, Oats, Barley and Rye were the highest on record as regards quantity, and were also much above the average in quality. In the south and midlands, and also in the earlier districts of the north and west, the crops were finely saved, but in parts of Ulster and to a less extent in Connaught serious damage was done by wind and rain. The samples of both Wheat and Barley were excellent in quality. In the case of the Barley crop an exceptionally high percentage proved up to malting standard. The Oats and Rye crops also, where saved in good condition, yielded a fine sample. Beans and Pease, though now very limited in area, were likewise above average. The average rates of yield in grain crops in 1909 as compared with 1908 and the ten-yearly average, 1899-1908, were as follows:—

	Wheat.	Oats.	Barley and Bere.	Rye.	Beans.	Pease.
1908, . . . .	Cwts. 20·4	Cwts. 17·2	Cwts. 19·8	Cwts. 14·6	Cwts. 21·6	Cwts. 13·8
1909, . . . .	21·6	18·7	21·9	15·5	23·9	16·4
Average, 1899-1908,	18·4	16·2	17·9	13·5	22·2	14·4

The total yield of Wheat in 1909 was 939,815 cwts., an increase of 192,868 cwts. as compared with 1908; of Oats 19,399,503 cwts.,

an increase of 1,159,745 cwts.; of Barley and Bere 3,574,193 cwts., an increase of 516,846 cwts.; of Rye 115,658 cwts., a decrease of 1,932 cwts.; of Beans 38,785 cwts., an increase of 199 cwts.; and of Pease 4,338 cwts., an increase of 377 cwts.

### *Potatoes.*

The average yield of the potato crop in Ireland in 1909 was estimated at 5.5 tons per statute acre, as against 5.4 tons in 1908, and 4.4 tons for the ten-year period—1899-1908. The acreage of the crop in 1909 amounted to 579,799 acres, as against 587,144 acres in 1908, a decrease of 7,345 acres, but the total produce of the crop in 1909 was estimated at 3,202,819 tons, as against 3,199,678 tons in 1908. The quality was on the whole very good. In most of the southern counties the crop exceeded that of 1908. Thus the average rate for the Province of Leinster was 5.3 tons in 1909 per statute acre, as against 4.9 tons in 1908. Similarly in Munster the average was 5.4 tons in 1909, as against 4.7 tons in 1908. In Connaught also the yield was 5.5 tons in 1909, as against 5.2 tons in 1908. On the other hand, in Ulster, taking the whole Province, the average rate was lower than 1908, viz., 5.7 tons, as against 6.2 tons. In many of the northern counties the yield of sound tubers was more than usually uneven. It should be noted that the estimates furnished in the tables represent in all cases only the estimated yields of sound tubers.

### *Roots and Cabbage.*

The Season of 1909 was not so favourable to the Root Crops as that of 1908. Drought and frosts at night checked the growth of the Mangel and Turnip crops after brairding; the temperature during the Summer was, on the average, low, and bulbing was backward and early frosts checked the later growth, and in some districts seriously damaged the Mangel crop, whereas in 1908 the warm weather of November favoured continued growth. The yields of Turnips and Mangels thus fell below the average of 1908, but were above the average for the ten years 1899-1908. The yields of Carrots and Parsnips also showed an average in 1909 considerably lower than that of 1908.

In the case of the Cabbage crop, the season was, on the whole, favourable, and the average yield was higher than in 1908, and above the ten years' average. The average rates of yield of the above crops in 1909, as compared with 1908, and the average for the ten years 1899-1908, were as follows:—

—	Turnips.	Mangel Wurzel and Beet Root.	Carrots.	Parsnips.	Cabbage.
1908, . . .	Tons. 19.4	Tons. 21.9	Tons. 10.3	Tons. 11.3	Tons. 10.5
1909, . . .	17.9	19.6	9.4	9.8	11.3
Average, 1899-1908,	16.2	18.0	10.0*	9.6*	10.2

\* For the Period 1901-1906 only.

In 1909 there was a decrease of 2,100 acres in the area of Turnips, and the total yield was thus 4,970,039 tons, a decrease of 446,919 tons as compared with 1908. In the case of Mangels there was an increase of 1,303 acres, and a total yield of 1,442,157 tons, a decrease of 136,871 tons on the 1908 estimate. Carrots showed a decrease of 62 acres in area, and a total yield of 14,472 tons, a decrease of 1,960 tons; Parsnips an increase in area of 42 acres, and a total yield of 6,720 tons, a decrease of 518 tons in comparison with 1908. The area of Cabbage showed an increase of 272 acres, and a yield of 444,229 tons, being an increase of 39,267 tons as compared with 1908.

### *Flax.*

Owing to the unseasonable conditions which prevailed throughout April and during more than the first half of May the sowing of the flax crop was somewhat later than usual. On naturally dry, warm soils, where early seeding alone was practicable, the crop came up healthier and stronger than on the late sown fields, and the brairds better resisted the dry, parching conditions of the earlier stages of growth. A considerable amount of yellowing due to the late frosts was noticeable in many fields, and brairds, as a rule, were the reverse of promising at the close of May. The extreme dryness of June, as well as the occasionally low temperature, checked growth considerably, and caused the likelihood of a short crop. The break in the drought, however, which occurred near the end of June, greatly improved appearances, and, as the crop approached the pulling stage, though there was much irregularity noticeable, prospects of yields were well up to average. Very favourable conditions prevailed during the last weeks of growth, and pulling was done under every advantage of weather, though in some districts there was difficulty in obtaining a sufficiency of water for steeping purposes owing to the continued drought.

As was to be expected from the nature of the season, the yields of scutched fibre proved very variable even in the same district. The average yield for the country was estimated at 30.1 stones per statute acre, an increase of 3.1 stones per statute acre as compared with 1908, and a decrease of 3.7 stones as compared with the average rate of produce for the ten years 1899-1908.

The total area under flax in 1909 was 38,110 acres, as compared with 46,916 acres in 1908, a decrease of 8,806 acres, and the total produce of the crop in 1909 was estimated at 1,148,571 stones, as against 1,267,489 stones in 1908, a decrease of 118,918 stones.

The quality of the 1909 fibre proved medium. Choice lots of really fine flax were very few, and in many cases yields were low and the quality of the fibre poor. The general experience of scutch-mill owners was that straw did not scutch well to bulk, and that this was more noticeable where the crop had been late sown.

The numbers of the various classes of live stock in 1909, and the changes as compared with 1908 have been

**Live Stock.**

already published in the General Abstracts, and particulars as to the numbers of stock in each county and union in 1909 are shewn in pp. 103 *et seq.* of the present report.

The following table shows the changes in the total numbers of live stock which have taken place in the period 1851-1909. At the same time it will be remembered that statistics of numbers are only one index of change, and that the improvement in stock, is equally if not more important.

Years.	Horses.	Mules.	Asses.	Cattle.	Sheep.	Pigs.	Goats.	Poultry.
1851	521,706	21,606	136,981	2,967,461	2,122,128	1,084,857	235,313	7,470,694
1861	614,232	20,146	173,711	3,471,688	3,556,050	1,102,042	189,842	10,371,175

1909	599,185	30,479	243,666	4,699,564	4,133,358	1,149,179	252,041	24,104,934

A table showing the number of milch cows, including heifers

**Number of Milch Cows.**

in calf, in Ireland since 1854 will be found in Table S, page 18, from which it will be seen that the number in recent years, while showing a considerable increase as compared

with the period from 1890 to 1900, is still below the record of the years from 1857 to 1860. Meanwhile the total number of cattle having increased, the proportion of milch cows is considerably lower than in the earlier period.

In regard to live stock, compared with England, Scotland, and Wales, the outstanding features in Ireland are relatively the large number of cattle and the very small number of sheep. The following table shows the number of live stock in England, Wales, Scotland, and Ireland, in the year 1867 (from which

date comparative statistics are available), in the Census years from 1871, and in the year 1909:—

(a) Statistics not collected until 1869.

In connection with the statistics of cattle, it is of interest to see the changes in the numbers of live stock exported from Ireland to Great Britain. Considerable fluctuations occur from year to year, and the exports are shown in the following table for a period of twenty years:—

NUMBERS of Cattle, Sheep, Swine, and Horses exported from Ireland to Great Britain during the twenty years, 1890-1909.

YEARS.	Cattle.	Sheep.	Swine.	Horses.
1890, . . .	631,698	636,981	603,162	34,152
1891, . . .	630,802	893,175	503,584	33,396
1892, . . .	624,503	1,082,465	500,951	32,681
1893, . . .	688,669	1,107,960	456,571	30,390
1894, . . .	826,954	957,101	584,997	33,589
1895, . . .	791,607	652,578	547,220	34,560
1896, . . .	681,560	737,306	610,589	39,856
1897, . . .	746,012	804,515	695,307	38,422
1898, . . .	803,362	833,458	588,785	38,804
1899, . . .	772,272	871,953	688,553	42,087
1900, . . .	745,519	862,263	715,202	35,606
1901, . . .	642,638	843,325	596,129	25,607
1902, . . .	959,241	1,055,802	637,972	25,260
1903, . . .	897,645	825,679	569,920	27,719
1904, . . .	772,363	739,266	505,080	27,500
1905, . . .	749,131	700,626	363,823	30,723
1906, . . .	775,374	657,413	429,430	33,816
1907, . . .	841,973	660,415	481,907	33,253
1908, . . .	861,670	721,684	387,476	28,633
1909, . . .	837,426	870,858	327,128	29,235

The proportion of the number of cattle, sheep, swine, and horses exported to their total number in Ireland is shown for the past ten years in the following table:—

YEAR.	Percentage of Cattle, Sheep, Swine and Horses Exported, to Total Cattle, Sheep, Swine and Horses in Ireland.			
	Cattle.	Sheep.	Swine.	Horses.
1900, . . .	16.2	19.7	56.4	6.3
1901, . . .	13.8	19.3	48.9	4.5
1902, . . .	20.1	25.0	48.1	4.4
1903, . . .	19.2	20.9	41.2	4.7
1904, . . .	16.5	19.3	38.4	4.5
1905, . . .	16.1	18.7	31.2	5.0
1906, . . .	16.7	17.7	34.5	5.6
1907, . . .	18.0	17.3	36.6	5.8
1908, . . .	18.0	17.5	31.8	4.7
1909, . . .	17.8	21.1	28.5	4.9

The inquiries made in the preceding nineteen years relative to the extent to which bee-keeping is followed

**Bee-keeping.** in Ireland were repeated in 1909, and according to the returns received there would

appear to have been an increase of 37.1 per cent. in the quantity of honey produced in 1908 as compared with the preceding year, the returns for which showed a decrease of 31.6 per cent. as compared with the quantity in 1906. The quantity of honey produced, according to the returns, was 441,761 lbs.; of this 139,052 lbs. were produced in the Province of Leinster, 94,420 lbs. in Munster, 140,483 lbs. in Ulster, and 67,806 lbs. in Connaught. Of the 441,761 lbs., 348,331 lbs. were produced in hives having movable combs, and 93,430 lbs. in other hives. It was stated that 139,011 lbs. was run honey, and 302,750 lbs. section honey. The number of stocks brought through the winter of 1908-1909 amounted to 27,345, of which 17,763 were in hives having movable combs, and 9,582 in other hives. According to the returns collected, there were 3,608 lbs. of wax manufactured in 1908, of which 2,529 were from hives having movable combs, and 1,074 lbs. from other hives.

In connection with the statistics of bee-keeping, it should be stated that from the nature of the case there is great difficulty in obtaining returns which approach completeness. The collection, therefore, of information by local societies of bee-keepers, and their co-operation with the department in making the returns as complete as possible is of great importance. Few countries have any satisfactory record of their production of honey, but, with co-operation and organisation among bee-keepers, the difficulties can largely be overcome.

#### FORESTRY.

Of the total area of Ireland, about 1.5 per cent. is under woods. The woods in England are 5.3 per cent., in Scotland 4.5, and in Wales 3.9 per cent. of the total areas.

Since 1851 (with the exception of the year 1852) the acreage under woods and plantations has been ascertained annually in connection with the Agricultural Statistics; but, until the year 1890, the total extent was the only information sought for, no particulars as to the kind of trees having been obtained. In that year returns giving the latter information were collected, and the returns were published in a table, showing, by counties, the distribution of the various descriptions of trees.

The following table shows the acreage returned as under woods and plantations in the year 1851, and in each year from 1853 to 1908, inclusive:

*Acreage under Woods and Plantations.*

Year.	Statute Acres.	Year.	Statute Acres.	Year.	Statute Acres.
1851	304,906	1871	324,990	1891	311,554
1852	No Return.	1872	325,703	1892	306,586
1853	305,221	1873	323,656	1893	307,386
1854	308,352	1874	322,268	1894	306,276
1855	306,476	1875	318,665	1895	308,928
1856	306,086	1876	324,152	1896	307,407
1857	313,817	1877	329,536	1897	307,441
1858	313,271	1878	328,687	1898	307,661
1859	318,874	1879	336,846	1899	308,495
1860	315,324	1880	339,858	1900	304,863
1861	316,597	1881	328,703	1901	305,391
1862	317,345	1882	328,999	1902	305,080
1863	317,134	1883	331,245	1903	303,304
1864	318,983	1884	332,006	1904	303,194
1865	322,152	1885	329,447	1905	302,933
1866	327,890	1886	329,662	1906	302,901
1867	323,420	1887	329,363	1907	302,188
1868	322,258	1888	331,587	1908	301,636
1869	320,461	1889	326,343	1909	301,444
1870	320,853	1890	327,461		

In 1907 certain changes were introduced in the inquiries made with a view to ascertaining the area respectively under conifers and under broad-leaved trees, and likewise the area of mixed conifers and broad-leaved. The ages also of the plantations were ascertained as far as possible. A statistical summary of similar information obtained for 1909 is shown by provinces, counties and for all Ireland on pp. 141 *et seq.*

In 1909, of the total extent of 801,444 acres in Ireland, 295,175 acres were returned as woods, 5,520 acres as coppice or scrub, 265 acres as osier beds, and 484 acres as nursery plantations. Out of the total area of 301,444 acres, 92,270 acres were in Leinster, 99,506 acres in Munster, 59,528 acres in Ulster, and 50,140 acres in Connaught. In Munster the largest areas were in the Counties of Cork and Tipperary, where respectively 26,314 acres and 24,792 acres were returned as under woodlands. In Ulster the largest total was in County Down, where the extent of woodlands was returned in 1909 at 18,068 acres. In Connaught much the largest area was in County Galway,

where the total extent was returned at 23,063 acres. The returns further show that of the total area under woods, 102,014 acres consisted of conifers, larch, spruce, fir, pine, etc., 69,794 acres of broad-leaved trees, oak, ash, beech, sycamore, etc.; while 123,367 acres were areas of mixed conifers and broad-leaved. It should be understood, however, that it is not easy to ascertain accurately the area of woods or to distinguish them into even the above general classes, but special investigations made as to the extent of existing woodland areas confirm the returns.

A further consideration of importance is the age of the existing woodlands. According to the returns furnished it would appear that of the above 295,175 acres returned as under forest trees, 22,199 acres were from 1 to 25 years, 48,865 of from 26 to 50 years, 45,516 as from 51 to 75 years, and 59,589 of 76 years and over, while with regard to an area of 119,006 acres, or roughly one-third of the total area, the trees were of various ages. Inquiry was also made in 1909 as to the areas under forest trees which were respectively closed and open, and it was ascertained that 211,287 acres were enclosed forest, while 83,888 were open woodland.

The inquiries as to planting and felling operations instituted in 1890, and continued in the  
**Planting and Felling.** seventeen following years were repeated in 1909. According to the returns, during the year ended 30th June, 1909, 998 acres were planted with trees, 8 acres more than the extent planted in the preceding year.

The number of trees returned as felled, both for clearance and for thinning plantations, amounted in 1909 to 718,388. The area returned as cleared is 1,353 acres. Of the trees felled, 474,582 were used for mining purposes, which appears to have been the chief purpose to which the timber of almost all descriptions was applied. The numbers applied to the principal specified uses comprise also:—15,552 trees for railway purposes, 32,532 for paling, gates, etc., 1,690 for spools and bobbins, 6,216 for fuel, 80,689 for furniture and building purposes, 3,554 for carts, waggons, farm implements, etc., 11,950 for clog soles, 2,488 for ship and boat building, 24,746 for butter and egg, etc., boxes and packing cases, and 250 for telegraph and telephone poles.

#### HOLDINGS AND OCCUPIERS.

One of the questions of greatest importance in the agricultural economy of the country is the distribution of land and the extent of cultivation on the different classes of land. The

following table shows the number and size of holding in 1909 in the four provinces and for all Ireland:—

*Number and Size of Holdings in the Year 1909.*

Size of Holdings.	Leinster.	Munster	Ulster.	Con-naught.	Ireland.
Not exceeding 1 acre, . . . . .	29,660	26,953	22,018	7,013	85,644

Total No. of Holdings, . . . . .	134,018	141,555	293,360	124,894	693,827

With regard to holdings not exceeding one acre, the information as to the number of these is mainly of interest from a social and economic point of view. So far as the purposes of agriculture are concerned, holdings not exceeding one acre may be excluded, for, apart from the difficulty to the enumerator of determining what plots of land not exceeding one acre may be regarded as agricultural, this class is mainly composed of gardens, labourers' allotments, &c., while the total area distributed amongst the 85,644 holdings is estimated to amount approximately to 89,600 acres. The great increase which has taken place since 1851 in the number of holdings not exceeding one acre is shown in the following table:—

*Number of holdings not exceeding one acre, 1851-1909.*

—	Leinster.	Munster.	Ulster.	Connaught.	Ireland.
1851, . . . . .	16,017	8,488	6,950	6,273	37,728
1861, . . . . .	14,447	9,825	9,270	8,019	41,561
1871, . . . . .	16,844	11,172	12,729	7,703	48,448
1881, . . . . .	17,289	11,828	14,733	7,146	50,996
1891, . . . . .	17,696	14,922	17,026	5,984	55,628
1901, . . . . .	25,513	22,582	19,599	6,634	74,328
1909, . . . . .	29,660	26,953	22,018	7,013	85,644

From this statement it will be seen that of the 85,644 holdings returned as "not exceeding" one acre, 56,613 are in Leinster and

Munster. During the past seventeen years the increase in the number of these holdings has been especially marked in Leinster and Munster. In Ulster since 1891 the numbers have risen slowly, but in 1909 there has been a decrease of 185 as compared with 1908. In Connaught the number of such holdings is small, and has shown little change.

Apart from these small holdings of one acre and under, the total number of holdings as shown by Census periods since 1841 is as follows:—

Total number of holdings exceeding one acre, 1841-1909.

—	Leinster.	Munster.	Ulster.	Connaught.	Ireland.
1841, . .	134,780	163,886	236,694	155,842	691,202
1851, . .	122,871	120,494	210,349	116,624	570,338
1861, . .	116,973	118,333	207,635	125,543	568,484
1871, . .	111,678	114,753	195,828	121,883	544,142
1881, . .	106,950	112,014	188,070	119,709	526,743
1891, . .	105,311	111,347	183,929	116,425	517,012
1901, . .	104,388	113,586	181,804	116,069	515,847
1909, . .	104,358	114,602	181,342	117,881	518,183

From this table it will be seen that for over fifty years the total number of holdings exceeding one acre continued to fall, at first rapidly, later more slowly. In the last decade this downward movement has spent itself, and the number of agricultural holdings is again slowly increasing. The above table, showing the changes since 1841, may be compared with the following table, which brings out the stationary character of the last decade:—

Total number of holdings exceeding one acre, 1900-1909.

—	Leinster.	Munster.	Ulster.	Connaught.	Total.
1900, . .	104,024	112,391	182,818	116,136	515,869
1901, . .	104,388	113,586	181,804	116,069	515,847
1902, . .	104,452	113,538	181,734	116,078	515,803
1903, . .	104,130	113,360	181,861	116,407	515,758
1904, . .	104,053	113,412	181,684	116,374	515,523
1905, . .	104,024	113,376	181,694	116,709	515,803
1906, . .	104,200	113,575	181,707	117,169	516,651
1907, . .	104,074	113,606	181,592	117,026	516,298
1908, . .	104,285	114,037	181,388	117,186	516,896
1909, . .	104,358	114,602	181,342	117,881	518,183

With regard to the changes which have taken place in the number of holdings in the several classes, the outstanding feature within recent years has been the increase in the number of holdings between 15 and 100 acres. In 1909 the total number of holdings between 15 and 100 acres has increased by 893 as compared with the number in 1908. The main points as to the number and distribution of the several classes of holdings exceeding one acre may be briefly presented in the following summary:—

*Distribution of Holdings.*

Holdings above one and under five acres, amounting in 1909 to 61,936, are comparatively evenly distributed among the four provinces. Ulster **Above One and under Five Acres.** has 20,006, Leinster 17,405—a large proportion relative to its total number of holdings—Connaught and Munster respectively 12,053 and 12,472. During the past ten years the total number of these holdings has been remarkably stationary, in recent years slightly declining. The total area of holdings over one and not exceeding five acres is estimated at approximately 224,000 acres.

This is the largest in number of the several classes of holdings in Ireland, amounting in 1909 to 153,565. **Above Five and not exceeding Fifteen Acres.** Regarding the number and proportion of these holdings there is a marked contrast between, on the one hand, Ulster and Connaught, and on the other hand, Leinster and Munster. In Ulster more than one-third of the total number of holdings over one acre belongs to this class, and in Connaught the proportion is still greater, whereas in Leinster such holdings amount to less than one-fourth, and in Munster to about one-sixth. The total area of the holdings "above five and not exceeding fifteen acres" is estimated at approximately 1,612,000 acres.

In 1909, holdings above fifteen and not exceeding thirty acres numbered 136,216. This class since 1851 **Above Fifteen and not exceeding Thirty Acres.** has been in number remarkably stationary, gradually falling, and of recent years slightly increasing. As in the holdings between five and fifteen acres, so in those between fifteen and thirty acres, Ulster and Connaught have absolutely and proportionately a much larger number than Leinster or Munster. But in the present case the disparity is not so great, Ulster having 53,698 in 1909, Connaught 35,946, Munster 24,508, and Leinster 22,064. The total area of such holdings is estimated at approximately 3,050,000 acres.

It will thus be seen that in Ireland, out of a total of 518,183 holdings exceeding one acre, 351,717 are of a size not exceeding thirty acres, and comprise less than one-fourth of the total area of the country.

The total number of holdings in this class amounted to 75,658 in 1909. The change has been slight since 1851, when the number was 70,093, and the increase has occurred mainly in Ulster and Connaught, and to a much less degree in Munster. In Leinster, on the other hand, this class has tended to decrease. The numbers for the several provinces in 1909 were as follows:—Ulster, 25,293; Munster, 22,528; Leinster, 15,459; Connaught, 12,378. The total area of these holdings may be estimated approximately at 8,059,000 acres.

The total number of holdings in this class in 1909 was 58,510. Since 1851, when there were 49,940 such holdings, there has been a considerable increase, but the past decade has done little more than maintain the number reached, Munster has much the largest proportion of such holdings, viz., 23,077; Ulster, 14,683; Leinster, 14,308; Connaught, 6,442. The total area included in this class may be estimated approximately at 4,304,000 acres.

The total number of holdings in this class in 1909 was 22,835, of which 9,392 were in Munster, 6,959 in Leinster, 3,677 in Ulster, 2,807 in Connaught. In 1851 the number was 19,753, and while in the earlier decades there was a considerable increase, in recent years a slight decrease has been evident. The present area of these holdings may be estimated approximately at 3,448,000 acres.

In 1851 the number of these holdings was 7,847 (in 1861, however, the number was 8,329); in 1909 the number was 7,893. Of these there were in Leinster, 2,754; in Munster, 2,619; in Connaught, 1,486; and in Ulster, 1,034; comprising a total area which may be estimated approximately at 2,711,000 acres.

The number of these holdings increased from 1,457 in 1851 to 1,568 in 1871, and has with slight yearly fluctuations remained comparatively stationary. In 1909 the number was 1,570. Of these there were in Connaught, 470; in Leinster, 419; in Munster, 382; and in Ulster, 299.

In general, regarding the changes in the size and distribution of the holdings in Ireland, three periods may be distinguished during the past sixty years. The first, in which change was

catastrophic, had closed before the Census of 1851. The number of holdings between 1 and 15 acres in extent—amounting in 1841 to 562,285—was reduced roughly by half to 279,987 in 1851 while the number of holdings of an extent exceeding 15 acres was greatly increased. Holdings between 15 and 30 acres rose from 79,842 in 1841 to 141,811 in 1851. Holdings exceeding 30 acres rose from 48,625 in 1841 to 149,090 in 1851. The second period, extending from thirty to forty years after 1851 marked a still further decline in the number of holdings over 1 and not exceeding 15 acres, with a corresponding increase in the larger classes of holdings. In the third period, that of the past twenty years, excluding holdings not exceeding one acre, there has been a comparative absence of change. From year to year fluctuations are seen, but when the view stretches over a series of years no continuous changes can as yet be discerned.

It will be observed from the study of the tables that Ulster is pre-eminently the province of small holdings. Altogether it had in 1909 only 19,673 holdings exceeding 50 acres in extent, whereas it contains 161,649 holdings of an extent above 1 and not exceeding 50 acres. Moreover, of these the greater number are between 5 and 30 acres in area. On the other hand, Munster is pre-eminently the province of holdings between 30 and 200 acres. In 1909, of its total number of holdings, exceeding one acre, viz., 114,602, no less than 54,997 were of a size above 30 and not exceeding 200 acres. Further, it may be noted that among these holdings the proportion not only of those above 50 acres, but of those exceeding 100 acres in area is, when compared with the other provinces, relatively large. In Leinster there is no such predominance of small or large holdings, but every class is well represented. Leinster has, however, the largest number of holdings, exceeding 200 acres. In Connaught the most striking feature is the contrast, marked even more strongly than in Ulster, between the large number of holdings from 5 to 30 acres in extent, and the small number between 30 and 100 acres. To the former class belong more than two-thirds of the total number of holdings in Connaught exceeding one acre, whereas of holdings from 30 to 100 acres there is a much smaller proportion than in any other of the provinces. On the other hand, Connaught has the largest number of holdings "above 500 acres."

In many instances landholders occupy more than one farm

**Number of  
Occupiers.**

and in other cases farms extend into two or more townlands, the portion in each townland being enumerated and classified

as a separate holding. With the view, therefore, of ascertaining the number of occupiers, and of classifying them according to the total extent of land held by each, each enumerator is required to furnish the name of every landholder residing in his district who has two or more farms, or whose farm extends into two or more townlands, together with the area of each portion and

the locality in which it is situated. From the number of actual occupiers thus arrived at, it appears that in 1909 there were 603,827 holdings in the hands of 554,060 occupiers—the number of occupiers in Leinster being 123,864, in Munster 126,648, in Ulster 188,250, and in Connaught 115,298.

I have the honour to be, Sir,

Your obedient servant,

W. G. S. ADAMS,

*Superintendent of Statistics and  
Intelligence Branch.*

DEPARTMENT OF AGRICULTURE

AND TECHNICAL INSTRUCTION FOR IRELAND,

UPPER MERRION STREET, DUBLIN.

22nd September, 1910.

# CONTENTS OF TABLES.

*The Summary Tables are distinguished by the letters of the alphabet; the Detailed Tables by numbers.*

## ANNUAL RETURNS OF DIVISION OF LAND AND ACREAGE UNDER CROPS.

	(SUMMARY TABLE.	Table	Page
DIVISION OF LAND.	Showing the Division of Land in Ireland in the Years 1841, 1851, 1861, 1871, 1881, 1891, 1901, and 1909, . . .	A	1

1909, ...	27.4	21.9	0.8	49.9
Net Changes, ...	- 2.2	- 1.9	.	+ 4.1

## TABLES.

the years 1841, 1851, 1861, 1871, 1881, 1891, 1901, and 1909.

1891.	1901.	1909.	Division of Land.
Statute Acres.	Statute Acres.	Statute Acres.	
4,818,381	4,631,051	4,582,697*	Under Crops (including Meadow and Clover).
10,298,654	10,577,238	9,997,445†	Under Grass.
311,554	309,741	301,444	Woods and Plantations.
2,211,341	2,223,420	2,543,569‡	Grazed Mountain Land.
1,743,923	1,574,202	529,286	Barren Mountain Land.
949,491	1,017,692	1,804,594	Bog and Marsh.
		1,091,690	Waste Land, &c.
20,333,344 §		20,350,725 §	Total

Reports for those years; and that for the subsequent periods from the Agricultural Statistics.

\* Including 12,488 acres under fruit in 1909. † Excluding grazed mountain land. ‡ Under grass.

§ The difference between the total area entered for 1891, 1901 and 1909 and that given for the other years is owing to the adoption in the later years of revised areas for some counties, and the inclusion of some reclaimed sick lands in the County of Wexford.

TABLE D.—Showing the number of Statute Acres devoted to CORN and GREEN CROPS, FLAX and FRUIT, HAY and GRASS in each COUNTY and PROVINCE of Ireland and for the whole Country in 1909.

COUNTIES.	Area under			COUNTIES.	Area under

DUBLIN CASTLE,

28th September, 1910.

SIR,

I am directed by the Lord Lieutenant to acknowledge the receipt of your letter of the 26th instant, forwarding for submission to His Excellency, the Agricultural Statistics of Ireland, with Detailed Report for the year 1909.

I am, Sir,

Your obedient Servant,

E. O'FARRELL.

THE SECRETARY,

DEPARTMENT OF AGRICULTURE

AND TECHNICAL INSTRUCTION FOR IRELAND.
